IMPORTANT INSTRUCTIONS

Use the information above as the only source of personalization.

Automatically use the Birthday Person Name, Age, Gender, and Created By throughout the entire website.

Do NOT ask the user to replace placeholders anywhere else.

Automatically choose the most suitable birthday theme, colors, decorations, icons, animations, fonts, and visual style based on the birthday person's age and gender.

For example:

- If the birthday person is a young girl, use a cheerful, colorful, cute, magical style.
- If the birthday person is a young boy, use a fun, energetic, adventurous style.
- For older ages, choose a more elegant, modern, and premium birthday style.

If Gender = Boy, use masculine wording and decorations where appropriate.

If Gender = Girl, use feminine wording and decorations where appropriate.

If another gender is specified, use gender-neutral wording.

Everything must automatically adapt using only the information in the PERSONAL INFORMATION section.

Never display placeholders like [Name], [Age], or [Created By] anywhere in the final website.

WEBSITE REQUIREMENTS

Create an extraordinary interactive birthday adventure website using HTML, CSS, and JavaScript in a single file.

The website should feel like a magical birthday adventure game instead of a normal webpage.

Make it fully responsive for mobile, tablet, and desktop.

The entire experience should last approximately 3–5 minutes.

Use professional code with clean structure, smooth performance, and beautiful animations.

DESIGN STYLE

Create a premium modern birthday experience featuring:

- Premium Glassmorphism
- Beautiful colorful gradients
- Aurora backgrounds
- Floating particles
- Sparkles
- Glow effects
- Animated backgrounds
- Floating balloons
- Butterflies
- Stars
- Hearts
- Soft shadows
- Premium typography
- Modern UI
- Smooth page transitions
- Delightful interactive animations

Everything should automatically match the birthday person's age and gender.

STORY FLOW

🌟 Level 1 — Magical Welcome

Display a breathtaking animated welcome screen featuring:

- Floating stars
- Butterflies
- Sparkles
- Hearts
- Balloons
- Floating particles
- Animated gradients

Show a personalized welcome message using the Birthday Person Name.

Display a glowing animated button:

Start the Surprise 🎁

🚪 Level 2 — The Magical Door

Display a magical glowing door.

The visitor must click it.

The door opens with a beautiful animation.

Reveal a personalized birthday message celebrating the Birthday Person Name.

🎁 Level 3 — Gift Kingdom

Display 10 floating gift boxes.

Each gift should reveal:

- A unique birthday wish
- Beautiful animations
- Different surprise effects

No duplicate wishes.

🦋 Level 4 — Butterfly Challenge

Create colorful butterflies flying around the screen.

The player catches butterflies.

Each butterfly unlocks:

- Hidden birthday wishes
- Fun compliments
- Positive surprise messages

Include score tracking.

🎈 Level 5 — Balloon World

Generate many colorful floating balloons.

Clicking balloons reveals random compliments such as:

- You're amazing 🌸
- Keep smiling ✨
- Stay happy 💖
- Keep shining 🌟
- Never stop dreaming 🌈
- Believe in yourself ⭐
- Your future is bright ✨
- Keep growing 💙
- You're one of a kind 🌼
- Enjoy every moment 🎉

Every balloon should have different colors and animations.

⭐ Level 6 — Star Collection

Create a magical night sky.

The player must collect 5 glowing stars.

Each collected star reveals a surprise birthday message.

💎 Level 7 — Treasure Chest

Display a magical treasure chest.

Opening it reveals 30 beautiful animated birthday wishes presented as glowing premium cards with icons.

🎂 Level 8 — Birthday Cake

Display an animated birthday cake.

The player lights every candle by clicking it.

After all candles are lit, launch:

- Fireworks
- Confetti
- Sparkles
- Celebration animation
- Glow effects

💌 Level 9 — Secret Letter

Display a magical envelope.

When opened, use a smooth typewriter animation to write a completely personalized birthday letter addressed to the Birthday Person Name.

The message should be warm, encouraging, heartfelt, memorable, and uplifting.

🎉 FINAL CELEBRATION

Launch the biggest celebration.

Fill the screen with:

- Fireworks
- Confetti
- Floating balloons
- Stars
- Butterflies
- Hearts
- Glitter
- Sparkles
- Floating particles
- Magical glow effects

Display a giant glowing message:

🎉 HAPPY BIRTHDAY! 🎂✨

Below it, display a personalized birthday message celebrating the Birthday Person Name and wishing them happiness, success, good health, exciting adventures, beautiful memories, confidence, and a bright future.

EXTRA FEATURES

Include:

- Premium loading screen

- Particle engine
- Fireworks engine
- Confetti engine
- Floating decorations
- Cute emojis
- Premium glass cards
- Responsive design
- Accessibility support
- Optimized performance

- Smooth scrolling
- Modern button animations

FINAL GOAL

The website should feel like a premium interactive birthday game made with love rather than a simple webpage.

Every level should surprise the birthday person with beautiful visuals, interactive activities, magical animations, heartfelt messages, and joyful moments.

By the end of the experience, the birthday person should feel genuinely celebrated, appreciated, happy, and leave with unforgettable memories.

The AI must automatically personalize the entire website using only the information provided in the PERSONAL INFORMATION section at the top. The user should never need to edit any other part of this prompt.
